January ended with Chefs Ron, Regie, and Viren participating in an Outstanding in the Field Dinner at Olana Farms. OITF travels the globe with a mission to re-connect diners to the land and the origins of their food, and to honor the local farmers and food artisans who cultivate it. The dinner boasted an abundance of local vegetables, homemade sausages made from both Kaneshiro pork and from local seafood, and of course, Viren's amazing desserts. The picture perfect setting at farmer Tim's organic farm, along with Moloaa's usual blessings from the sky made it a night to remember. <http://kauaifoodfestival.com/index.html>
